

Paradise™ Fabric is made from 100% post-consumer recycled soda bottles with the ability to render extremely vivid colors. Paradise™ Fabric is the highest quality 100% recycled content fabric made in America available on the market today. The Paradise™ manufacturing process requires less energy and natural resources when compared with competitive “green” fabrics.

#### **FEATURES / SPECIFICATIONS**

- 9oz Weight: Paradise™ is up to 40% more durable than similar “green” fabric print media.
- Finishing Quality: Excellent grommet and stitching performance with vivid color quality.
- Brilliant White: Paradise™ stock quality will allow for better and quicker color management.
- Made in the USA: Manufactured in America by Americans. Delivered faster and with up to 90% reduction in fossil fuel consumption.

This Fabric is Fantastic! You have to see it to believe it!
